

RESOLUTION NO: 2015-09-10B

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF OVERTON, TEXAS, TO CONSIDER APPROVAL OF PURCHASE OF RECORDING EQUIPMENT BY SMITH COUNTY 9-1-1 COMMUNICATIONS DISTRICT FOR THE CITY AND RECOMMEND THE AWARD OF BID TO THE PREFERRED VENDOR

WHEREAS, the Smith County 9-1-1 Communications District has offered to purchase recording equipment for the City of Overton to allow for recording of all communications traffic of the 9-1-1 communications section as well as administrative offices; and

WHEREAS, the Smith County 9-1-1 Communications District has set aside in its annual budget an amount sufficient to pay for the equipment but is allowing the City the opportunity to select the vendor that it feels will provide the best equipment among the competing vendors; and

WHEREAS, the City of Overton Police Department has evaluated two vendors for consideration with proposals below the funding level available;

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF OVERTON, TEXAS:

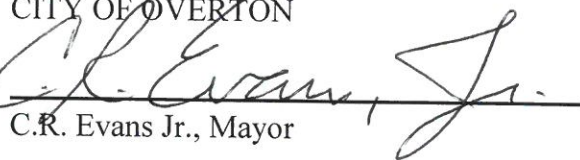

THAT, the City Council hereby authorizes the Police Chief to make the selection between Commercial Electronics as the provider for the recording equipment for the City.

AND IT IS SO RESOLVED that this Resolution shall become effective upon adoption.

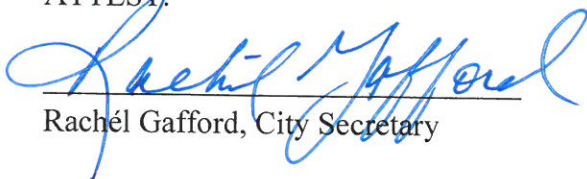

APPROVED AND ADOPTED by the City Council of the City of Overton, Texas on this 10th day of September, 2015.

CITY OF OVERTON

No.: 3231
Date: 8/6/2015

NOTE: Maintenance costs shown do not include coverage for options shown on quote. The selection of the additional options listed on the quote, if any, will increase maintenance costs as shown below.

Tier I - Remote Software Support Only **\$1,290.00**

The Software Only option is a 24-hour remote maintenance and software update plan. Most problems can be corrected quickly through dial-up access into the voice logging server. If a dedicated phone line is provided, the system will also automatically report any malfunction directly to HigherGround who will then correct the problem perhaps even before it becomes evident to you. As new software features come available, they will be automatically downloaded to the system. *If a dedicated phone line is not available, a shared line could be switched as needed (perhaps a fax line), however, automatic trouble reporting could not occur.

Tier II - Hardware Exchange **\$1,961.25**

Exchange service includes the software maintenance above and defective board / module exchange of otherwise warrantable parts. Parts identified by the customer as defective will be pre-shipped by Commercial Electronics for immediate replacement. On-site labor required to replace parts is provided by the customer.

Tier III - Standard Business day On-site **\$2,503.75**

Standard service continues the same service as that provided during the warranty period; i.e. 24-hour monitoring*, remote* software updates and covers all system hardware as well. Most malfunctions are typically not hard equipment failures, and can be corrected by reinitializing programs remotely. However, should an otherwise warrantable failure occur to the hardware, this plan covers all parts, labor and mileage during normal business hours. Should after-hours service be required, the customer would be responsible for additional labor charges of \$112.50 per hour.

Tier IV - 24x7 On-site **\$3,768.75**

Our 24-Hour service option extends the standard service to full 24-hour response for equipment failures or other situations requiring an on-site technical presence. Standard repair service is provided from 8:00 a.m. to 4:30 p.m., Monday through Friday. 24-hour service covers repair actions necessary to restore primary operation after normal business hours.

Time and Materials

If no Maintenance Agreement is chosen, Commercial Electronics will continue to provide service on a Time-and-Materials basis. Our current labor rate is \$225.00 per hour plus parts and applicable mileage; after hours service is billed at time and one half, \$337.50.
